

JOIN THE TRAFFIC SAFETY PARTNER NETWORK!

While engineering continues to make both vehicles and roads safer, driver behaviors cause hundreds of preventable crashes in North Dakota every year.

We invite you to join the North Dakota Department of Transportation (NDDOT), law enforcement and other traffic safety advocates to promote traffic safety among your co-workers, family and friends.

Implementing a safe driving program for your organization could protect your valuable employees, reduce costs and reduce potential liability.

Join the network today and each month you will be emailed the latest campaign materials regarding traffic safety such as the importance of seat belt use and impaired and distracted driving prevention. Materials are free and all contributions are voluntary.

Ask us how you can implement a workplace traffic safety program by emailing dottrafficgrp@nd.gov.
